📍 Nanded Maharashtra ,India

Summary

Experienced React.js/React Native Developer with a strong background in building dynamic and responsive web applications.

Proficient in developing reusable components, managing state efficiently using hooks and Redux, and integrating RESTful APIs.

Skilled in optimizing performance and ensuring mobile-friendly, high-quality UI/UX design.

Adept at collaborating with cross-functional teams, implementing best practices, and staying updated with the latest industry trends.

Passionate about writing clean, maintainable code and delivering robust software solutions.

Professional Experience

2022/11 – present
Hyderabad

Front End Developer at Intware Technology

- Develop and maintain dynamic, responsive web applications using React.js and modern JavaScript frameworks.
- Build reusable components and ensure optimal performance through efficient state management and best coding practices.
- Collaborate with clients and cross-functional teams to gather requirements, provide updates, and deliver solutions that exceed expectations.
- Utilize HTML5 and CSS3 to craft accessible, mobile-friendly, and visually appealing interfaces aligned with modern design standards.
- Integrate and manage RESTful APIs, ensuring smooth data flow between frontend and backend services.

2022/05 – 2022/10
Aurangabad

Front End Developer at Redbytes Software

- Develop engaging and responsive user interfaces using HTML5, CSS3, and modern JavaScript frameworks like React.js, incorporating design libraries such as Material-UI, Bootstrap, and Chakra UI for streamlined and consistent styling.
- Leverage component-based architecture to build scalable and maintainable frontend solutions while ensuring seamless integration of third-party UI frameworks to enhance user experience and design flexibility.

2021/11 – 2022/04
Aurangabad

Intern Trainee at Redbytes Software

- Utilize HTML5 and CSS3 to craft accessible, mobile-friendly, and visually appealing interfaces aligned with modern design standards.
- Integrate and manage RESTful APIs, ensuring smooth data flow between frontend and backend services.

Projects

ONP [🔗](#)

- Designed and developed a comprehensive port management web application to streamline registration and tracking of ships, fishermen, and fish species.
- Implemented user-friendly interfaces for efficient data management and real-time updates.
- Enhanced operational efficiency through responsive design and robust functionality tailored for the maritime sector.

Starkenn [🔗](#)

- Developed a dynamic vehicle tracking management web application for real-time monitoring and route optimization.

- Integrated interactive maps and live tracking features to enhance fleet visibility and operational efficiency.
- Designed intuitive user interfaces ensuring seamless navigation and effective data representation.

Steel Express [↗](#)

- Designed and implemented a web application to manage core operations in the steel industry, including inventory, production, and logistics.
- Integrated data visualization tools for real-time tracking of production metrics and resource allocation.
- Developed a user-friendly interface to streamline workflow and enhance operational efficiency.

Fintech Accounting [↗](#)

- Created a robust accounting management web application to streamline financial processes, including invoicing, expense tracking, and reporting.
- Implemented automated calculations and data validation to enhance accuracy and reduce manual effort.
- Designed an intuitive user interface to facilitate efficient navigation and seamless management of financial data.

My Universe [↗](#)

- Developed a user-friendly university management web application to streamline operations such as student enrollment, course scheduling, and staff management.
- Designed dashboards with real-time data visualization for improved decision-making and resource allocation.
- Integrated features for efficient communication and centralized record-keeping, enhancing administrative efficiency.

Skills

HTML	CSS
Javascript	React
React Native	Redux
Bootstrap	Material UI
Figma	Xd Design
Git / GitHub	Responsive Design
Cross Browser Debugging	Jira Tool
